Technical Information

Interior Film

Our stretchable architectural film is a decorative film with adhesive that is applicable on site.

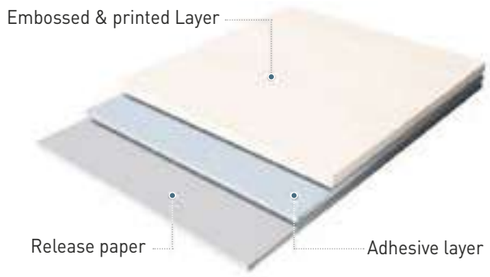
Recreate your world with our stretchable architectural film. It is an ideal way to finish many environments on site with little or no down time. Our stretchable architectural film is used extensively for interior applications such as Hotels, Shops, Washrooms, Student accomodation, Elevators, etc. With its light weight and minimal thickness, our stretchable architectural film is a popular choice for cruise ship interiors. Our stretchable architectural film offers hundreds of patterns including Solid Colour, Metallic, Glitter, Leather, Fabric, Soft Touch and also natural material replications such as Wood, Stone and Marble. Our stretchable architectural film's original pressure sensitive adhesive ensures clean, fast installation on a variety of substrates. With its superior flexibility, our stretchable architectural film can be installed on highly detailed and 3D surfaces.

Product Structure

Our stretchable architectural film is a printed film with adhesive

1. Embossed & printed film layer (vinyl-chloride plastic)
2. Simplified adhesive (acrylic plastic)
3. Release paper

The above is a representative structure of our stretchable architectural film .
The actual structures and materials may be slightly different for each series.

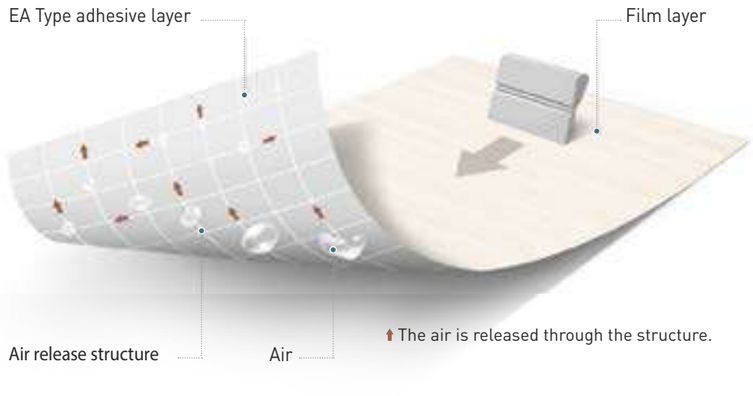


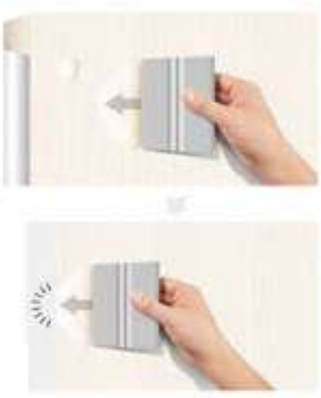
Easy to install with Air release adhesive

Our stretchable architectural film
is applied using an Acryil type adhesive, which has an adhesive surface with grid grooves for air-release between the film and the substrate.
The air is released along these grooves, enabling the film to be quickly and easily affixed to large or complex surfaces.
This provides a higher quality finish.

Facilitates the release of air when the film is affixed, enabling easy application to large or complex surfaces.

Air release structure





Enabling the film to be installed quick and easy.

Environment

We pay attention to nature

Our stretchable architectural film is an eco-friendly film that care about healthy environment.

- Free from harmful heavy metals (lead, cadmium, mercury, hexavalent chromium, etc)
- Formaldehyde (HCHO), the substance that causes sick house syndrome, is not released.
- Minimized release of volatile organic compounds (TVOC, toluene, etc)
- It meets the safety standard (KF mark standard) applied to wallpaper and paperboard.
- Meets the safety requirements for hazardous chemicals in the Common Safety Standards of Children's Products.
- Excellent maintenance and anti-mold function, which helps to maintain a pleasant surrounding environment.

Inspired by a number of timber species, our Wood range reveals the charm of your rooms, giving them a natural touch. Are you dreaming of an interior with a “Swiss chalet” or Canadian-style look? An oak, beech, teak look....Placed in strategic places, such as a table or a wardrobe door, you would only need the smell of the woods and birdsong to transport you to the middle of the forest.
